*DV4 HD5V Displaying High Definition*

*Displaying Clock Widget and RSS feed as a Crawl*

Now anyone who can use PowerPoint® can be a master producer of the DV4 HD5V presentation system. And the system comes with more than 400+ PowerPoint® backgrounds and 15+ Holiday Videos for your use.

The DV4 HD5V series is a powerful Communications tool that lets you schedule and display high impact video, stills, PowerPoints® and HTML 5 Widgets over local and remote Standard Definition or High Definition TV screens. Because it uses the Android OS, it integrates with Google Apps and can display presentations and calendar events that can be changed from any hand held device, anywhere in the world. Video outputs include, HDMI for High Definition playback or with our optional converter, AV output and stereo audio for standard definition playback. It is perfect for: Hotels, Restaurants, Hospitals, Senior Care, Condos, Schools, Government & Corporate Offices, Cable Companies and more! Simply add your media, schedule and export your presentation to the DV4 HD5V.
