Terms and conditions:

Dealers must be approved by EverFocus to qualify for the HDcctv Dealer Program. After approval and acceptance into the program an order must be placed within 90 days to remain an active member within the program.

Dealers in the HDcctv Dealer Program are allowed to work with one distributor of choice. The distributor chosen is the ONLY one allowed to give the dealer the specified discounted pricing. If you are deactivated from the program when you are reactivated you will receive them same distributor you chose when you first signed up. EverFocus is not responsible for distributors not in good standing. If a distributor is not in good standing, and therefore unable to provide a dealer with product, the dealer may append his distributor of choice.

All orders must be drop shipped to authorized dealers to qualify for up-front discounted invoices on this program. All orders not drop shipped will be treated as inventory already on hand.

For inventory already on hand an approved POS report or copy of customers invoice, to qualified dealers, must be submitted in order to receive credit back for this program.

By signing below I accept the above terms and agreements and verify that I am authorized to make the decision of the distributor I will choose to use for the HDcctv Dealer Program. I understand that once a distributor is chosen I will not be able to change this even if I cancel my participation in the program and attempt to resign later on.
