

DVRPTR16

16 Video, 2 Data Port Surge Protection

02/12/10

PRODUCT SPECIFICATION

Description

The **DVRPTR16** is designed to provide 16 channels of multi-stage video surge protection as well as 2 channels of data surge protection. It is cost-effective and ideally suited for protecting multi-input video devices such as a DVR, multiplexer or matrix systems. The DVRPTR16 is rack mountable in a standard 19" rack. It installs in minutes and provides a single easy access point for grounding. The video channels use 2.8 volt solid state clamping for unmatched protection. The data channels are clamped at 5 volts.

Features

- Provides 16 video + 2 data surge protection ports
- Multi-stage video protection clamps to 2.8 volts
- Fits standard 19" rack
- Easy to install
